ALLEGES LEACH IS OUT OF TERRITORY

Attorney General Takes Up Case of Inland Boatmen.

Columbus, O., Sept. 17.—In a letter to Collector of Internal Revenue Leach of Cleveland, Assistant Attorney General John A. Alburn asked by what right he arrested and caused to be fined 22 launch owners at Portage lake early in the week. The fines which were assessed against the owners amounted to \$9,600, and although they have not been paid as yet, they amount to more than the entire outfit of launches are worth.

Mr. Alburn is of the opinion that the collector exceeded his authority in the matter, as the arrests were made under the laws governing the great lakes, while Portage Lake is owned by the state of Ohio, is an artificial reservoir and the feeder of the Ohio canal.

The charge placed against the launch owners was failure to comply with the lake rules for having extinguishing apparatus on board, as well as some other things which are not required under the rules which govern the navigation on the Ohio reservoirs. The launches are said to have fully complied with the requirements laid down by the state board of public works.

THREATENS HAZERS WITH MILITIAMEN

Columbus, O., Sept. 17.—That Colonel Roosevelt is not the only person who can talk to the point on law and order was demonstrated at chapel by President William Oxley Thompson of O. S. U.

"If I would have been at hand the other night when some of you were committing hazing, I would have had every one of you, not clubbed, but taken into custody and given the punishment of the law. There's going to be no rioting here, under the guise of 'hazing,' and there is going to be no hazing. Listen to the statutes of Ohio on hazing."

Then the chapel full of agitated students heard in "driving-home" tones, the law on the subject.

"Now," he resumed, "that makes me jointly liable if I permit hazing. No student is going to be permitted to make me, by implication, guilty of breaking any law of this state. And no student here is going to break any law without paying the penalty, not to the school here alone, but to the police authorities also. I will stop hazing here if I have to suspend all work, and keep troops on the campus from September to June. If I can't stop it, I will resign."

"But I'm satisfied I can. Now, if I ever hear the suggestion of hazing around here again I will never allow another case rush. This year you can have one."

DEMANDS

\$2,000 Damage As Balm Charging Alienation

Of Wife's Affections By Parents-In-Law

Coshocton, O., Sept. 17.—Claud E. Cochran of East Union, defendant in a divorce case which has been pending in the local courts over a year, has brought a sensational suit for alienation of his wife's affections. He claims to have been damaged to the extent of \$2,000 by the conduct of his father-in-law and mother-in-law, William Barrett and Elizabeth Barrett. He claims that they enticed his wife from his home and ever since have prevented her from going back.

It will be recalled that Lillia Cochran, the wife, brought suit in common pleas court March 15, 1909, asking a divorce on the grounds of the excessive use of intoxicants, gross neglect of duty and annoyances caused by the alleged failure of the husband to pay his debts.

In his petition, Cochran affirms that he was wedded June 6, 1903, and that Oct. 16, 1908, while the plaintiff was away from home, his father-in-law came to their residence with the purpose of maliciously enticing away Mrs. Cochran and alienating her affections. After Barrett had succeeded in getting his daughter to leave home and to stay at the house of her parents that the father joined in all possible means to prevent the young wife in returning to her husband.

He says that he was led to believe by the note that the wife left behind and by the fact that she had left his supper prepared on the table for him, that she would soon come back and for that reason he did not investigate her absence for several days. Then he says he went to his father-in-law's house and learned of the efforts being made to keep the daughter from coming back. He says that Lillia Cochran permitted the plaintiff to bestow on her all the attentions of an affectionate husband and repeatedly addressed him in endearing terms. He claims that on the next visit, Mr. Barrett refused him admission, ordered him to leave and forbade him to return.

"Ever since," says Cochran in his petition, "by promises, threats, and predictions of evil, they have prevented my wife from returning to me." He claims the older people have no just cause for persuading their daughter to stay away and ever since her departure he has been willing for her to come back to him. He says he still maintains a household in hope that she would return and he has repeatedly invited her to do so, but on account of "malicious interference" she has refused to do so.

Cochran's attorneys are Glenn & Reasoner.

FORTUNE

In Automobiles At The County Fair On Friday

Persons attending the Knox county last Friday were astonished at the large number of automobiles on the grounds. Many were owned by Mt. Vernon people, but a large number were owned by farmers of Knox county. It is estimated that during Friday afternoon there were 150 machines on the grounds. At a conservative estimate these were worth \$150,000—more than the value of all the horses at the fair. It is the first time in the history of the Knox county fair that automobiles have been on the grounds.

COURT HOUSE NOTES

Adjudged Insane—

Mrs. G. W. Garrison, aged about 70 years of Utica, was adjudged insane in probate court Friday. Judge Seward was on the bench. Mrs. Garrison is the wife of one of the better known doctors in this part of the state, and she was brought in at noon by Sheriff Slabaugh in an auto. She is a dignified old lady, and her peculiarity is that she refuses to talk. She was accompanied by Miss Kate Litzenberg, her nurse, who also went with her to the Central hospital in Columbus later in the afternoon.

The cause of her mental failure was a profound shock which she received two years ago when her only daughter died. A little later Utica was swept by a great conflagration, and it also impressed her profoundly. While questioned by the court she refused to talk except to admit that she had cut her hair off and that she had no reason for the act.

Mrs. Garrison has two sons, one of them an editor in Utica, and the other a banker in Thornville, Perry county. —Newark American Tribune.

VITAL WASHINGTON NEWS

TAVENNER, "WRITER AND THINKER," GIVES US THE FACTS AS THEY REALLY EXIST.

Washington, Sept. 17.—Spending \$3,567,855.66 every business day, the United States under the reign of the standpat Republicans has become the most extravagant government in the world.

Increased expenditures in the first year of the Taft administration, over the corresponding year of Cleveland's last administration, amounted to \$575,730,000, or over 120 per cent. This occurred under the much-heralded Taft policy of "cut-to-the-quick" economy, recently repudiated in Maine and Vermont.

National expenditures for the ensuing year amounted to \$1,098,847,184, which is more than the entire capital of all the national banks in the United States, \$919,143,825, and more than one-third of the entire output of all of our gold mines in 120 years, \$3,063,787,000.

Two striking illustrations of the Republican "business" administration are: A deficit of \$11,579,265 since June 30, 1910; A deficit of \$180,381,355.89 since June 30, 1907.

Here are some of the ways the standpatters spend the people's money in a republic:

Marble baths for senators. Autos to carry them 100 rods between their offices and the Capital. Touring cars for the President, vice president and "Uncle Joe."

More than \$2,500 for applanaris water for the senators. Thousands of dollars to keep them in vasseline, castor oil, olive oil, bromo quinine, hair tonic, costly perfumes, glycerine, bergamot, nail brushes, clothes brushes, traveling expenses in attending funerals, etc.

Much Money Wasted
If the waste at Washington is \$300,000,000 a year, as stated by Aldrich, every American family suffers to the extent of \$16.66 every year. This is enough to buy a suit of clothes. It will buy an overcoat or a cloak. It will buy nearly three tons of anthracite coal. It will buy four or five pairs of shoes, or various other necessities.

Extravagance Increases Prices
Under our system of excessive protection, government extravagance and cost of living keep pace. As the government raises practically all of its revenue by taxing things eaten, worn or used, the consumer pays his pro rata of government extravagance every time he buys a protected article at his local grocery, dry goods or furniture store.

This rule proves itself. The per capita appropriation by Congress jumped from \$6 to \$12 between 1890 and 1910. Increasing in almost exact proportion, the prices of 100 leading articles, according to Bradstreets, advanced 56 per cent between 1896 and 1910.

People Are Not Represented

An increased annual tax of more than \$100,000,000 has been saddled upon the American people through increased freight rates within the last few years without opposition by the government. But this is not enough. The railroads want still more revenue, and as soon as the November elections are over it is believed they will be allowed to boost their rates a couple of notches higher.

The interstate commerce commission is now going through the formal procedure of taking testimony as to the reasonableness of the new increases which, according to the estimates of the commission, will swell the annual profits of the railroads \$500,000,000. There are high-priced lawyers for the railroads at the hearings, and also an imposing array of legal talent for the big shippers. The public alone is unrepresented.

One fact that has cropped out at the hearings is that the railroads seem to have unanimously agreed that the increased rates shall apply where they will be the least annoyance to the trusts and big corporations of manufacturers. The added burden is to be laid on the little fellow—the merchant, the householder, the fathers and mothers of the families, the country storekeeper and the farmer. Products of the trusts enjoy a striking immunity from increases. This is not hard to understand. It is not easy for the railroads to put an increased rate over on the sugar or the steel trust. Such increases would be fought tooth and nail and probably defeated by counsel for the combines who gather like flies about the room in which the commission meets. But it is easy money to put an increased rate over on the general consumer, because he isn't present to enter objection, nor is anyone there to enter objection for him.

The interstate commerce commission declares it represents no one in particular, but sits as a judicial body wholly. The result is that in many, many instances the case goes against the consumer by default.

Weather Was Clear

When the results of the Vermont election showed a 27 per cent slump in the Republican vote, the Republic-

an leaders in Washington declared the phenomenon was due to rainy weather. Then came the sweeping Democratic victories in Maine. As the election took place on a clear day, it would indicate the change in sentiment going on all over the country bears no relationship whatever to atmospheric conditions. If the election of the Democratic candidate for governor, Plaisted, by a plurality of 8,732, is not sufficient to discredit the weather theory, here are results of other elections held on pleasant days which tell their own stories:

Eugene N. Foss, Democrat, elected to Congress from Massachusetts March 22 by a plurality of 5,640.

James S. Havens, Democrat, elected to Congress from New York by a plurality of 5,831.

C. C. Atkinson, Democrat, elected to Congress from Missouri on February 1 by a plurality of 3,778, the Democratic majority in 1908 being only 1,995.

The recent overwhelming victory of Senator LaFollette was a clear-cut and direct repudiation of President Taft by the people of Wisconsin.

MT. VERNON

To Be Included In Fanciers' Association

A meeting was held in this city at which representatives of the Fanciers' Associations of Newark, Lancaster, Cambridge and Zanesville, were present. It was called for the purpose of forming an organization looking toward the holding of a joint show by the associations of the cities mentioned. At the meeting a temporary organization was formed and elected the following officers: President, Leonard Essman, Newark; secretary, F. C. Closter, Zanesville.

It was decided to ask the associations of Coshocton and Mt. Vernon to join the organization.

The plan considered is to hold a large show at some one of the towns mentioned. The shows in all the towns have hitherto been a success and it is thought that a large show would be a good thing for all parties concerned. —Newark Advocate.

Susie, Brightest of Monkeys, Is Big Pet

Professor Garner has just returned from the African jungles, bringing with him a chimpanzee, which he has named Susie. This was his fourth trip to Africa to watch and learn the habits of the chimpanzee in its wild state, and on this occasion he lived for seven years among gorillas and chimpanzees and brings back some marvelous tales concerning them. He declares that in his opinion it will not be long before these animals will be able to speak a language that we understand. Susie's actions and cleverness seem to bear out these statements. When the professor tells her to "come here," "sit down" or "laugh" she obeys instantly and appears to understand almost everything he says to her. This chimpanzee is shortly to be exhibited at various colleges throughout the country, making her debut at the University of Pennsylvania.

Attention Sick Women

If you had positive proof that a certain remedy for female ills had made many remarkable cures, would you not feel like trying it?

If during the last thirty years we have not succeeded in convincing every fair-minded woman that Lydia E. Pinkham's Vegetable Compound has cured thousands and thousands of women of the ills peculiar to their sex, then we long for an opportunity to do so by direct correspondence. Meanwhile read the following letters which we guarantee to be genuine and truthful.

Hudson, Ohio.—"I suffered for a long time from a weakness, inflammation, dreadful pains each month and suppression. I had been doctoring and receiving only temporary relief, when a friend advised me to take Lydia E. Pinkham's Vegetable Compound. I did so, and wrote to you for advice. I have faithfully followed your directions and now, after taking only five bottles of the Vegetable Compound, I have every reason to believe I am a well woman. I give you full permission to use my testimonial." —Mrs. Lena Carmocino, Hudson, Ohio. R. F. D. No. 7.

St. Regis Falls, N. Y.—"Two years ago I was so bad that I had to take to my bed every month, and it would last from two to three weeks. I wrote to you for advice and took Lydia E. Pinkham's Vegetable Compound in dry form. I am happy to say that I am cured, thanks to your medicine and good advice. You may use my letter for the good of others." —Mrs. J. H. Breyere, St. Regis Falls, N. Y.

There is absolutely no doubt about the ability of this grand old remedy, made from the roots and herbs of our fields, to cure female diseases. We possess volumes of proof of this fact, enough to convince the most skeptical.

For 30 years Lydia E. Pinkham's Vegetable Compound has been the standard remedy for female ills. No sick woman does justice to herself who will not try this famous medicine. Made exclusively from roots and herbs, and has thousands of cures to its credit.

Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health free of charge. Address Mrs. Pinkham, Lynn, Mass.
